Summary

Drone Docking station as desk toy or for high tech doll houses

[Tabletop Miniatures](#) > [Vehicles & Machines](#)

Tags: [drone](#) [station](#) [dji](#) [dockingstation](#) [dronedockingstation](#)

This nice model of a dronedocking station can be used as your desktop accessory to lighten up your desk and impress your colleagues. Or you can upgrade your dollhouse to be very high tech and having its own place for a drone.

The parts are rather small, so lowering your print speeds can help to get more detail.

One part has a color change to let the helipad look more realistic.

Might you want to adjust anything, the solidworks files are included.
